IT'S THE 'INCREDIBLE BULK' ...

HERE it is — an exclusive picture of that monster 38 lb pike taken by Robin Stone, of Bath, Avon, during the pike haul of the century from the Norfolk Broads.

Although the picture was taken by an amateur photographer, you can still see the full body of this massive pike.

As reported in Angling Times recently, Robin also took pike of 28½ lb, 27½ lb, 22 lb, 20 lb, 15 lb, and 8 lb with his fishing partner Robert Bragg.

Robin, a 34-year-old painter and decorator, boated his 38 pounder — which is just 2 lb under the current British pike record — on match fishing tackle and 10 lb line.
