

Broads Angling Services Group

Monthly Members Meeting Jun 2022

Members - Clubmate

- **CIC Members**
 - 20 CIC Members, (17 currently)
 - Reserve powers (like shareholders)
 - Attendance at AGM, 6 member meetings, 1 working group
 - Voted Membership
 - Volunteer effort 8-10 hours month
- **General Members**
 - Discussion
 - Supporters, subscribers, paying members, volunteers
 - Benefits?
- **Associate Members**
 - Governing Bodies or Trade Representatives
 - No voting rights
 - Can apply for full membership

Clubmate Membership Solution

MEMBER MANAGEMENT

- Manage your organisation if you have 3000 members
- Track membership and add notes on the go
- Access key information at the click of a button
- Produce your own report and share across your team
- Keep or back up data your reports generated, text & push notifications

ONLINE PAYMENTS

DIARY & BOOKINGS

MATCH BOOKINGS

COMMUNICATION TOOLS

REPORTS

FOR ADMIN

- Manage your organisation if you have 3000 members
- Track membership and add notes on the go
- Access key information at the click of a button
- Produce your own report and share across your team
- Keep or back up data your reports generated, text & push notifications

Day ticket booking fee	75p per day ticket
Club website	from £240 per year
Venue maps	from £135 per map
Text messages	5.5p per message

Configuration completed and now working supporting Improved communications to members.

Responsible Angling

It is not just about the fish you catch, it is important that you look after other wildlife and the environment. It's about how you catch the fish, but you must also look after the fish and other wildlife.

A fishing club should have a set of rules, and it should be clear to all anglers. It should also have a set of rules for the fish, to be careful of the fish and other wildlife.

Should a fish accidentally break your line, get the top of the fish in the net, or be caught in the net, do not panic. Do not throw the fish away, do not throw the fish away, do not throw the fish away.

Should you need assistance with any equipment, please contact us at broads@broads-angling.co.uk.

We always like to leave fish, but fishing clubs that can be very dangerous to wildlife, rather than take it all away with you.

Look at targeted fishing. It is not allowed. At the same time, it is not allowed to target fish around the Broads. That only does this, it is not allowed to target fish around the Broads. That only does this, it is not allowed to target fish around the Broads. That only does this, it is not allowed to target fish around the Broads.

While fishing, try to keep your equipment clean and tidy, especially around the water and the bank. It is not allowed to target fish around the Broads. That only does this, it is not allowed to target fish around the Broads.

Anglers and Birds

It is not allowed to target fish around the Broads. That only does this, it is not allowed to target fish around the Broads. That only does this, it is not allowed to target fish around the Broads.

Broads Angling Services Group

The Broads Angling Services Group (BASG) is a Community Interest Company that has been set up to support and improve angling on the Broads. We will work with you to help you to catch fish, but you must also look after the fish and other wildlife.

Our angling strategy has been set for over 10 years to help you to catch fish, but you must also look after the fish and other wildlife.

Should you need assistance with any equipment, please contact us at broads@broads-angling.co.uk.

Catching Fish on The Broads

Catching Fish on The Broads

When you catch a fish, you should always handle it carefully. Do not touch the gills, do not hold the fish by the tail, and do not hold the fish by the head. You should always handle the fish with care, and you should always handle the fish with care.

When you catch a fish, you should always handle it carefully. Do not touch the gills, do not hold the fish by the tail, and do not hold the fish by the head. You should always handle the fish with care, and you should always handle the fish with care.

When you catch a fish, you should always handle it carefully. Do not touch the gills, do not hold the fish by the tail, and do not hold the fish by the head. You should always handle the fish with care, and you should always handle the fish with care.

Concept of the Salinity Sensor Network

Overview

The equipment comprises three main aspects:

- Sensor
 - Communications
 - Background data gathering and processing
 - Need defined within Broads Futures Report on lack of salinity data

 - BASG Member Simon Salter leading on this
 - Kelvin engaged with WfT to fund a pilot study on the River Thune
 - Proposal and technical specification defined by July.
-
