

Broads Angling Services Group

FOA Northumbrian Water PLC
Rollesby Parish Council
Norfolk Wildlife Trust

Dear Sirs

3rd April 2023

Rollesby Broad platforms lease agreement between Northumbrian Water Limited and the Broads Angling Services Group CIC (BASG).

In January 2023 BASG held its Annual General Meeting and passed two resolutions, which changed the direction of travel of the company and its ability to own and manage assets within the Broads. These resolutions reflect the willingness of Broads Anglers to support any form of payment to access and fish the Broads and the previous core objectives of BASG to find sustainable incomes to secure the Broads Fishery and Angling.

The platforms that enables bankside access to fish Rollesby Broad are an example of this and something BASG attempted to address last year to find a sustainable solution to enable continued sustainable revenues for their use. Sadly this hasn't been achievable and as such BASG has stepped back from this ambition and refocused on more strategic items facing the Broads like climate change and pollution.

We therefore wish to apply section 3.4 terms of the lease and issue 3 months formal notice on its termination. This would enable it to remain closed at the start of the Fishing Season 16th June 2023.

Regards

Kelvin Allen
Chairman
